

★ STREET ADVENT TRAIL ★

Lighting the way to Christmas

Make: An embossed photo tree decoration

You will need:

A jar lid

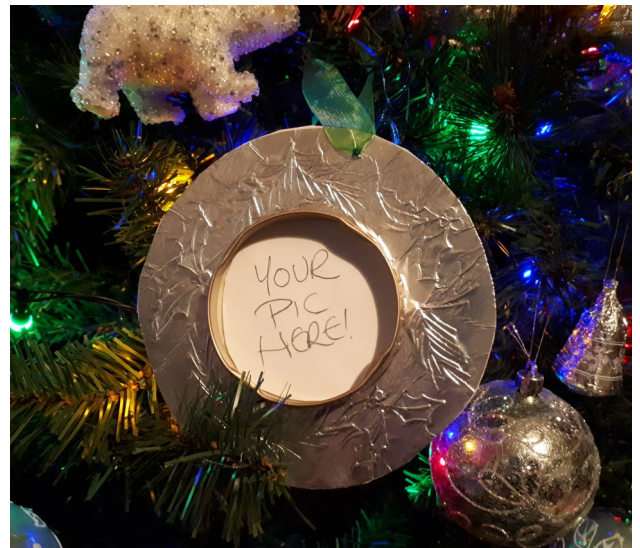

Cardboard (cereal box works well)

Foil or shiny paper (below is one made with a gold envelope the other with foil)

A piece of pretty ribbon or thread

A picture of a loved one

Glue or double sided tape

1/ Find something circular that is bigger than your jar lid to draw around, cut it out.

2/ Draw a pattern (above I decorated one with stars the other with holly leaves) on the wrong side of the paper or foil, leaning on a mat or some cardboard as you need to push hard so it shows up well

3/ Then stick it onto the cardboard and cut around it. Make or punch a hole and tie a piece of ribbon to hang it.

4/ Get your photo and place the jar lid over the piece of the picture you want. Cut it out and stick it in the jar lid. Stick the jar lid in the centre of your decorated frame, hang on the tree!
